Come and trek along one of the seven wonders of the modern world with Icon Adventures: the Great Wall of China.

The Great Wall is a series of stone and earthen walls, ramparts and towers that stretches from over 6000 kilometres from Shanhaiguan in the east to Lop Nur in the west along an arc that roughly follows the southern edge of Inner Mongolia. Construction started as early as 206 BC and continued until the 16th Century, with much construction during the Ming Dynasty (1368-1644). The wall was built to protect the northern borders of the Chinese Empire against invasions by nomadic tribes.

Icon Adventures will take you to some of the most scenic and historic parts of the wall; some have been restored to their former glory while other parts have

fallen into disrepair but are beautiful none-the-less. The wall clammers over jagged ridges, deep valleys and high mountains and through spectacular countryside. We'll stay in comfortable hotels or guest houses in villages so you can experience the local food and culture of each area that we visit. In all we'll spend five days trekking along the wall, which will give us enough time to also see the Thirteen Tombs of the Ming Dynasty north of Beijing, the Summer Palace and Tiananmen Square in Beijing and to have nearly two full days exploring the fascinating city of Shanghai.

It runs for more than 20 kilometers and consists of four sections: Wohushan, Panlongshan, Jinshanling, and Simatai. It has 143 beacon towers, each positioned at an average interval of about 150 metres. There are many attractions along the Jiankou section, including the tower known as The Eagle Flies Facing Upward. The Sky Stairs is another famous spot – a narrow and very steep staircase.
